

The **Park Center** was created to build on **Park Academy's** mission to provide an inclusive community where evidence-based practices empower students with dyslexia and related learning differences to reach their highest academic and personal potential, and we are pleased to announce the **Park Center Tutoring Program**.

Addressing the educational needs of struggling readers, our Orton Gillingham trained educators will work with your child, one on one, to build their literacy skills.

Tuition for the 24 sessions is \$2,400, with an additional \$100 for an intake/assessment.
